-wing would not be a positive outcome. We agree, the 'solution' is a problem. The problem is the false premise that 'there is no world without free software' - there is only 'more and less efficient'. Can we 'fix' free software (or get rid of it)? No, we cannot. There is no chance to make it 'good enough' so as to stop people from using it. If we were to outlaw and break free software, there would still be a need for it, but it would not be the free software it is now. We can't fix it - we need to stop using it. ~~~ SyneRyder Forgive my misinterpretation of your post, but the 'solution' in the Fork/Spork/Spock wording is just the name of the concept of having "equivalent enough" free software versions, because the free software that you can install can't have a better product in some real use cases (because that would require non-free parts of the code), which is what the thing is about. So, the fork/spork/spock concept is just a clever way of saying "We need a proper free alternative", and because it is free software it could be an effective way of delivering it. ----- VOYD > free software is not the answer This sentiment is echoed in the following documents. [ sw.html]( [ sw.html]( [ [ [

**What's New in the?**

Print Assist: Add borders, frames, and more to your printed documents with customizable settings and a streamlined workflow. (video: 2:20 min.) ActiveX Graphics: Get the latest versions of AutoCAD when you create a new drawing. Create a true 2D drawing model with great precision and draw faster than ever before. (video: 1:37 min.) More Customize and Control: Easily adjust how the cursor responds to your input. Assign actions based on layers, filters, and layers. (video: 1:46 min.) More Precision: Create precise 3D models with your 2D drawings. Easily add and adjust markers and surface curves to measure angles, lengths, areas, and other measurements. (video: 1:26 min.) More Colored Line Styles: Work with many more color lines. Accurately simulate many more colors with the new paint bucket options. (video: 1:38 min.) More Colored Diamonds: Create colorful geometry on surfaces and solids. Now you can create and edit diamond surfaces, colored triangulated surfaces, and more. (video: 1:43 min.) More Clipping Geometry: Easily create and edit all sorts of geometry, from polylines to solids to fillets. Easily connect to solid lines to create 2D clips. (video: 1:52 min.) More Polygons: Create polyline geometry quickly. The new Polygonizer tool simplifies the conversion from closed polyline geometry to arbitrary polygon geometry. (video: 1:59 min.) More Content: Create interactive drawings. AutoCAD provides the new Collaboration Viewer to help you work with colleagues and clients. (video: 1:57 min.) More Measurements: Use new measure and dimension tools to increase your precision. Easily extract corner radius, include corner radius, and add concentric circles with a single click. (video: 1:54 min.) More Geometric Tools: Easily create and edit 2D geometry. Now you can easily create bezier curves, compound curves, spline curves, and more. (video: 1:46 min.) New user interface: Use a Modern UI to get more done, with faster

---

**System Requirements:**

CPU: Dual Core 1.5 GHz, 2.0 GHz, or equivalent Intel or AMD processor. Memory: 1 GB RAM. OS: Windows XP, Vista, 7, or Windows 8.1 Graphics: DirectX 9.0, OpenGL 2.0 compatible graphics card Sound Card: Supported Sound Card HDD: 2 GB space for installation. Screen Resolution: 1024 x 768, 1280 x 720 or better. Language: English, French, German, Italian, Spanish, Polish, Portuguese, Japanese, Chinese
